Background

In 2016 the Gingirana People entered into a mining agreement with Kalium Lakes for heritage protection and compensation for the Potash Mine.

That mine is getting close to production now, so Central Desert and the Marputu AC Board have been negotiating some changes to the Agreement with Kalium Lakes.

The new parts of the Agreement include:

- Adding some areas into the Agreement which Kalium would like to mine
 - Milestone payments for starting production
 - Increasing the amount of money to develop a cultural awareness training package which Marputu AC can run
 - Additional strong heritage protection and consents
-

This meeting is for the Gingirana Native Title Holders to understand how the Agreement will change and then consider whether or not to give consent for Marputu AC to enter the agreement.

Central Desert will be at the meeting to explain the changes and give advice to the Gingirana Native Title Holders.

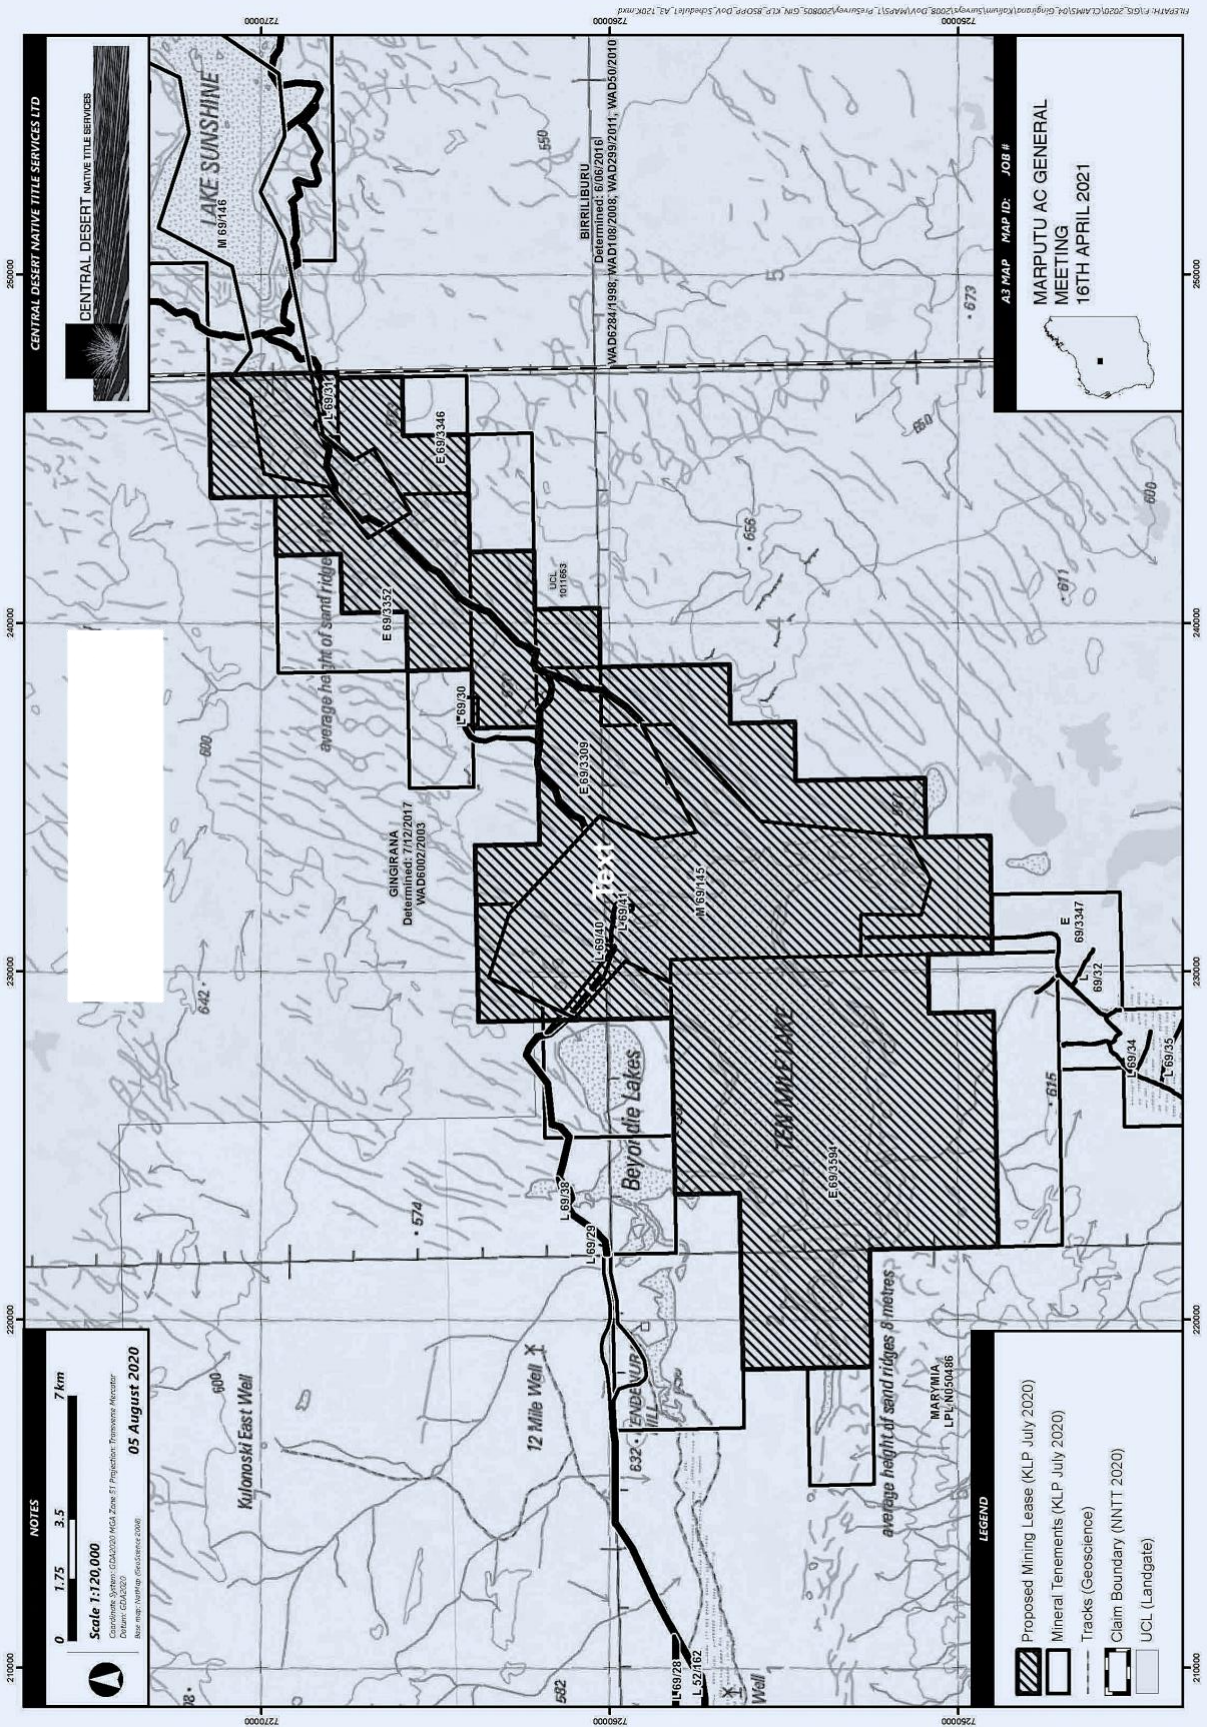

Kalium Lakes will also attend.
